

Mirror monitor FAQ

1. Can the monitor be turned off and only work when in reverse?

Yes, on install the monitor will start up as normal, the engineer will need to wire up the reverse trigger, press the OFF button on the monitor and it will start working in reverse only.

2. How do I attach the clip over monitor to my OEM rear view mirror?

The monitor has a spring loaded clip on the rear, this latches on to the factory mirror and will hold it tight.

3. Can I adjust the brightness?

Yes, you can adjust the brightness, saturation, contrast, and many others
