

DSCON SPLIT POLYETHYLENE CONDUIT

Protect and manage your cables with DSCON Split Conduit, designed for quick and efficient installation in automotive and industrial environments. Featuring a split design for easy cable access, this conduit ensures maximum flexibility while maintaining superior protection against external elements.

- Material: Durable polyethylene for long-lasting performance
- Temperature Range: -40°C to +150°C – built for extreme conditions
- Chemical Resistance: Resistant to oils, fuels, and harsh chemicals
- Easy Wire Insertion: Split design allows for effortless cable routing and maintenance
- High Flexibility: Adapts to tight spaces and complex installations

Ideal for fleet operators, auto electricians, and industrial applications, DSCON Split Conduit provides convenient access while maintaining robust cable protection.

Conduit Diameter (Internal-External)	Length
4.5-7mm	50m,100m
6.9-10mm	20m,50m,100m
9-14mm	50m,100m
11.4-15mm	50m,100m
13-18mm	50m,100m
16-21mm	50m,100m
