

VIRTUS FLEET 4-PAD HEATED SEAT (SINGLE SEAT)

Heated seats have become a popular feature in vehicles, adding an extra touch of luxury and comfort to the driving experience and can also offer several benefits, especially during cold weather.

D-ACC-01494

Each kit includes four Pads – two for seat backs and two for seat bottoms.

Each heater has three settings – High, Low and Off (Dual Temperature Control System). An electronic thermostat (built into each pad) regulates the electricity/temperature circulating within the carbon fibre seat heating pad.

This system regulates the flow of power and maintains a narrower temperature range whether in a high or low setting.

Features:

- 4 Pads Included
- Comes with switch
- Universal Fitting
- Carbon Filament
- Fast Warming Time
- Self-Adhesive
- Equal Heat Distribution
- Suitable for 12v vehicles
- Pad dimensions: 46cm x 14cm each pad
